

# Area of a Parallelogram

Apr. 18/18

Parallelogram Area

base  $\times$  height

$$b = 27.2 \text{ cm} \quad A = b \times h$$

$$A = 27.2 \text{ cm} \times 16.8 \text{ cm}$$

$$= 459.96 \text{ cm}^2$$

## Estimating Answers

①  $10 \times 5 = 50$

②  $15 \times 5 = 75$

③  $13.2 \times 3.4 = 44.38$  Estimate - 30/40

④  $26.7 \times 31.75 = 847.725$  Estimate - 600
