

STAR ORNAMENT SEWING PROJECT

Textiles 9

STEP 1

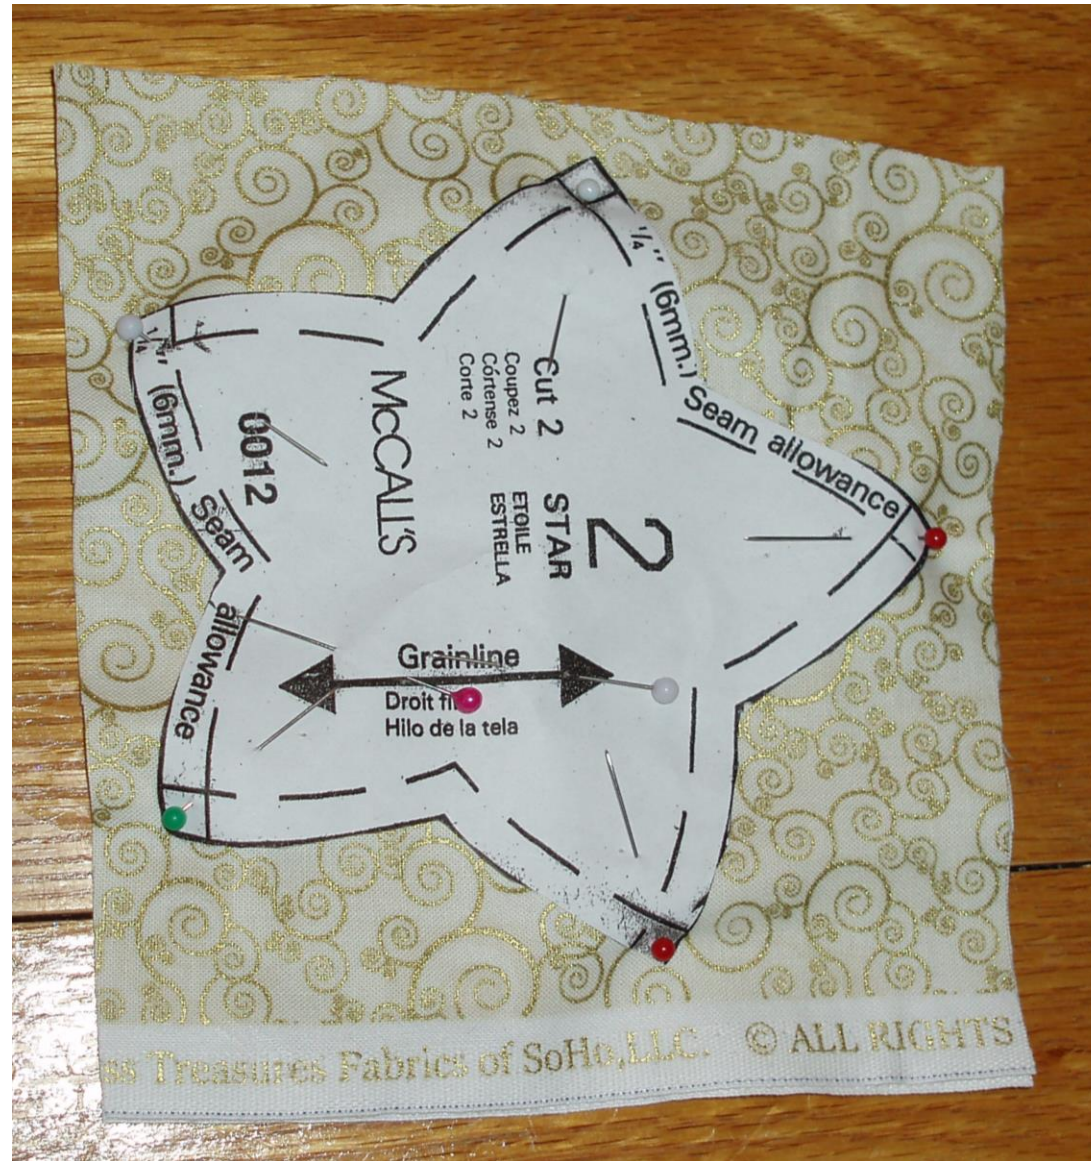

Place pattern on fabric.

Measure from grainline to edge and pin the grainline.

STEP 2

Pin all 5 corners of the star.

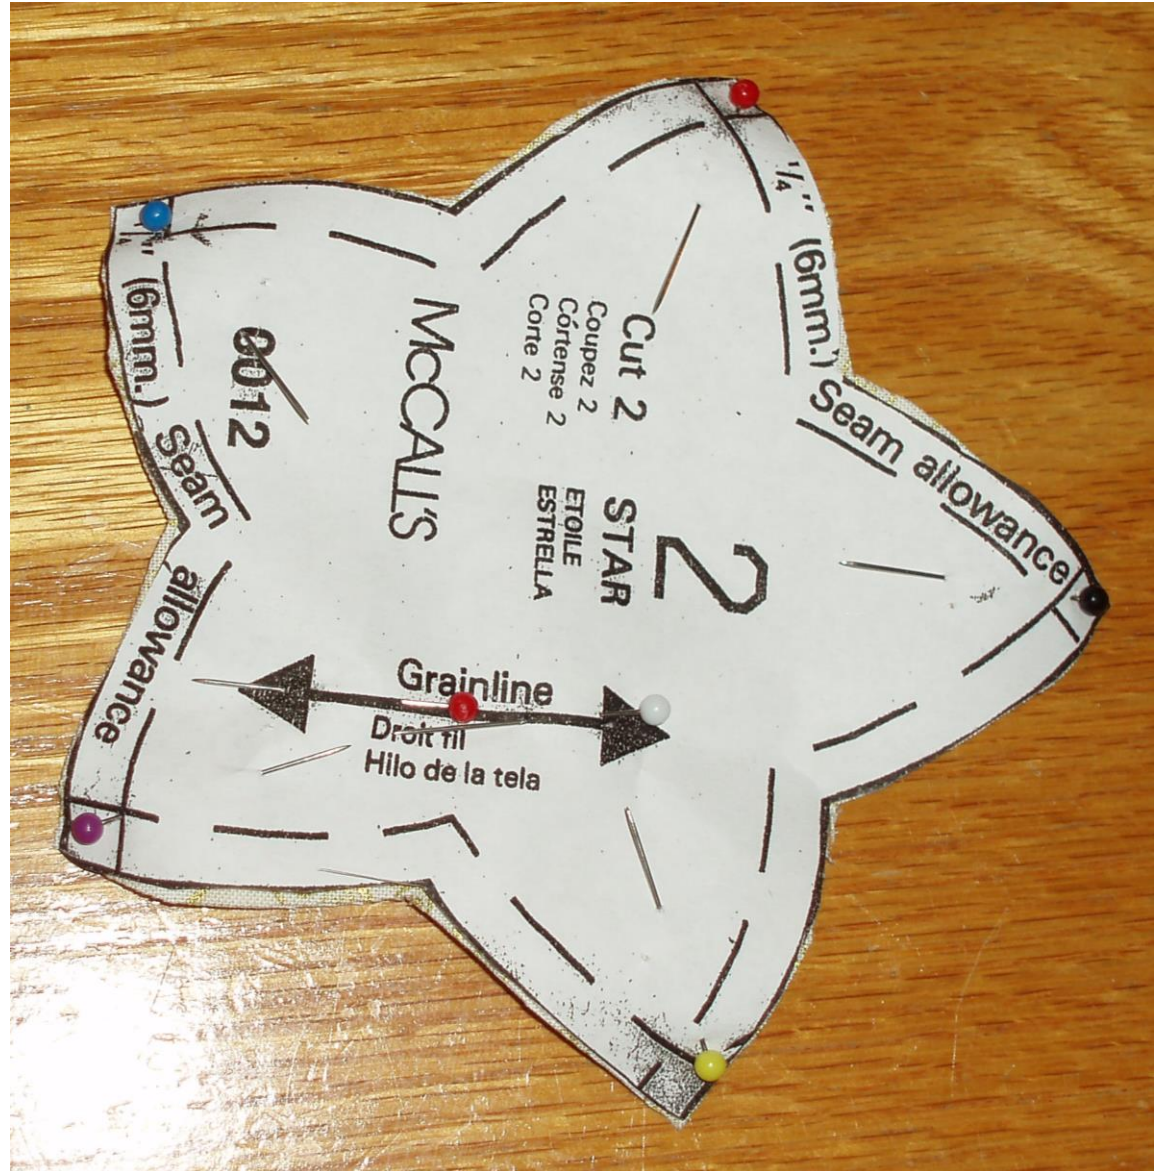

STEP 3

Cut out star using the table as an anchor (that means do NOT hold the pinned fabric in the air and cut).

Once cut remove the pattern.

Obtain a piece of ribbon.

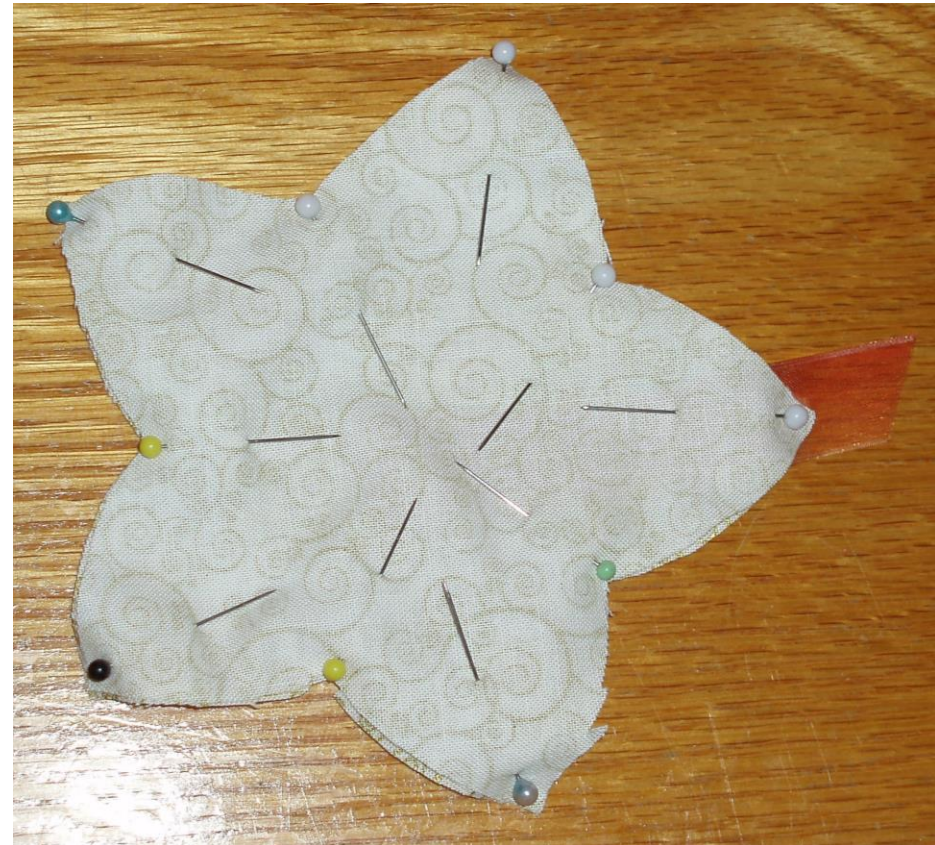

ASIDE

If you want embellishments on your Star ornament it is good to do this before you sew your star together

STEP 4

Pin the star good sides together with the ribbon attached to one corner between the 2 layers.

Please ask for help at this step to ensure your ribbon is in the right place.

STEP 5

Stitch by hand 9 or the 10 sides.

Make sure to knot any new threads added so your project does not fall apart.

STEP 6

Once 9 sides are stitched and securely knotted turn project right sides out.

Fill star with cotton filler.

Fold under edges of 10th side and pin then stitch project closed.

STEP 7

Final product should look something like this.
