

CPU 10 to 12 Final Project Ideas

Sustainability in the Municipality of Chetwynd:

Demonstration of the PLOs:

- **Excel** – Create graphical representations of Sustainability in the Municipality of Chetwynd
 - Examples:
 - Use surveys to see what sustainable practices are implemented/used in Chetwynd (rain barrels, solar panels, ext.).
- **Word** – Write 2 paragraphs about Sustainability in the Municipality of Chetwynd as well as what new programs could be created to encourage sustainable practices in the Chetwynd area.
 - Examples:
 - 1 paragraph about Sustainability in the Municipality of Chetwynd
 - 1 paragraph about new sustainable programs could be created to encourage sustainable practices in the Chetwynd area
- **PowerPoint** - using images and words to talk about possible sustainable practices in Chetwynd
 - incorporate animations into your PowerPoint
- **Web design**
 - using all you have learned about sustainability create a website using Weebly
 - in Weebly need to make your project encourage people to visit your site
- **Ethics**
 - Source websites used to design your page and for any content you use that is from an external source
 - discuss the impact of your website as well as identify the audience the website is intended for
 - describe how your website gets its message across (for example the class website clearly indicates that it is for a classroom environment)
 - describe what security precautions you used to create your website (for example you do not include personal identifiers)
 - describe how your website prevent cyberbullying (for example not perpetuating stereotypes)
